

LOGO SYSTEM

The KCS mark is set in Orbitron Black with a brass K. It is a self-contained wordmark — never place taglines, sibling text, or other marks flush against it. Minimum clear space on all sides: the height of the K.

**Wordmark • Color**

Default on white / light surfaces

**Wordmark • Reverse**

On pine or any dark surface

**Lockup • Color**

Letterhead, proposals, invoices

**Lockup • Reverse**

Dark headers & footers

**F5 • Machined Metal**

Signage, plaques, covers — dark surfaces only

**F9 • Offset Outline**

Polos, jackets, patches — 2 thread colors, no gradients

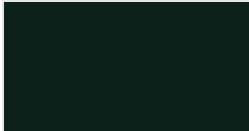

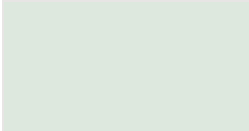

RULES

- Never re-typeset the mark — always place the supplied files.
- Never add a tagline or company name butted against the wordmark; use the lockup instead.
- F5 metal lives on dark backgrounds only. On light surfaces use the flat color wordmark.
- For embroidery use F9 (brass + white threads). For single-color use: all-white or all-pine wordmark.
- SVG files are true vector (type outlined) — use them for print, signage, and cutting.

COLOR & TYPE

PALETTE – PINE

				
Pine 950 #0B211A	Pine 900 #123227	Pine 700 #1F523A	Pine 500 #3A7A55	Pine 100 #DDE8DE
